

DO NOT BE A VICTIM!

NOBODY HAS A RIGHT
TO ASSAULT OR HUIMILIATE YOU!

DOMESTIC VIOLENCE IS A CRIME!

YOU AND YOUR CHILDREN
DESERVE TO BE SAFE!

**If you are attacked,
call the police: 158**

After the assault see a doctor
and ask for a medical report.

**If you choose to handle the situation
by leaving your home**, think about when
and where to go, about financial means
and safety of children.

Take with you: residence permit, birth certificates,
passports (yours and your children's), marriage certificate,
health insurance cards, important medical reports, documents
related to bank accounts, debit card, lease agreement. clothes
for yourself and your children, money, medicine, keys, mobile phone.

Do not leave without your children, it could be difficult to return to them
later.

If **you leave** the assailant, **it does not mean that your residence permit
will be revoked!**

In the case of divorce and child custody disputes, the court seeks
the best interest of the children. The fact that one parent is a foreigner,
does not affect the court's decision.

Both parents have equal parental rights.

If you need advice, or to find safe accommodation, you can contact
SIMI - Association for Integration and Migration.
